Paintball Purchase Program
Health topic of the month: Great American Smoke Out: 19 Nov 15

The American Cancer Society marks the Great American Smoke Out on the third Thursday of November each year by encouraging tobacco users to mark the date to make a plan to quit or to plan in advance and quit tobacco products for that day. With tobacco independence behaviors even for one day, those addicted to nicotine will be taking an important step towards a healthier life – one that can lead to lessening cancer risk.

Tobacco use remains the single largest preventable cause of disease and premature death in the U.S. yet about 42 million Americans still smoke cigarettes — a bit under 1 in every 5 adults. As of 2012, there were also 13.4 million cigar smokers in the U.S., and 2.5 million who smoke tobacco in pipes — after dangerous and addictive forms of tobacco. Yet when tobacco users achieve quit behaviors, health benefits are almost instantaneous. For example:

- 20 minutes after quitting: Heart rate and blood pressure drops.
- 12 hours after quitting: Carbon monoxide level in your blood drops to normal.
- 2 weeks to 3 months after quitting: Circulation improves and lung functions increase.
- 1 to 9 months after quitting: Coughing and shortness of breath decreases. Normal function in the lungs begins with increased abilities to handle mucus and to reduce the risk of infection.
- 1 year after quitting: The excess risk of coronary heart disease is a half that of a continuous tobacco user.
- 5 years after quitting: Risk of cancer of the mouth, throat, esophagus, and bladder are cut in half. Cervical cancer risk falls to that of a non-smoker. Stroke risk can fall to that of a non-smoker after 2.5 years of cessation.
- 10 years after quitting: The risk of dying from lung cancer is about half that of a person who still uses nicotine products. The risk of cancer of the larynx (voice box) and pancreas decreases.
- 15 years after quitting: the risk of coronary heart disease is that of a non-tobacco user.

These are just a few of the benefits achieved after tobacco users become tobacco independent through the lifetime. Tobacco cessation also lowers the risk of diabetes, lets blood vessels work better, and helps the heart and lungs. When tobacco users quit nicotine at younger ages, their health conditions improve dramatically. Yet, tobacco cessation among those addicted to nicotine will give back years of productive and quality life that would be lost by continuous tobacco behaviors.

PERSONAL & WORK LIFE

**Healthy Relationship Skills for Singles**
4 November from 1200-1300
This presentation focuses on the keys to building a healthy marriage: mutual trust, respect, and communication.

**Building Healthy Marriages**
4 November from 1200-1300
This presentation will teach participants how to recognize characteristics of resilient children as well as methods for building resilience in children by teaching coping skills, optimism, character building, and more.

**Building Stress Resiliency: Making Stress Work for You**
18 November from 1200-1300
This presentation digs deep to open the eyes of participants to their beliefs on stress and helps them to learn how to make stress work, including four ways to increase stress resiliency and practice techniques for reducing stress related tension.

**Mission Based Marriage**
23 November from 1200-1300
This presentation will teach participants how to make their marriage work throughout normal challenges and those of the military lifestyle.

**Healthy Relationship Skills for Singles**
25 November from 1200-1300
Does it seem easy to find people to date but impossible to find a good match? This presentation will help you to clarify what you are really looking for in a relationship and help you to become aware of your own personal pitfalls in choosing the wrong people.

**Conflict Resolution**
30 November from 1200-1300
This presentation begins with a review of how to recognize and understand conflict, including providing a review of the many different styles of conflict. The presentation goes on to look at the many different ways one can respond to conflict, provides communication guidelines, and explores effective ways to positively resolve conflict.

November is Military Family Appreciation Month! Be sure to check out the following classes in recognition of this special month.

The classes below will take place in Building 833, A&FRC Conference Room.
